

LEAVE NO TRACE WORKSHOP & TEAM-BUILDING DAY

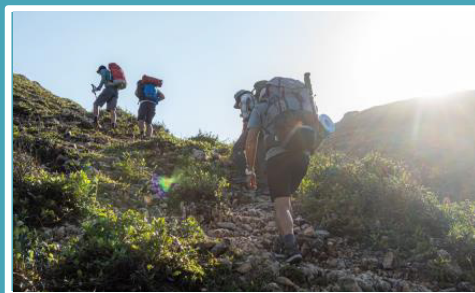

PROGRAMME FOCUS

Leave No Trace workshop aims to sustain the environment for generations to come. We take practical solutions and make conscious decisions of how we interact with the environment, in order to lessen our impact on nature. By educating ourselves and influencing people around us with the sustainability mindset, we are setting the course for conservation in our hikes.

Team-building activities: Team-building activities: We encourage each participant to try on the leadership role, whether it be practising delegation and/or coordination skills. CNH provides a welcoming environment with plentiful opportunities for one to practice effective leadership. Leaders can learn how to bring out the strengths in his/her team, and to complete tasks by cultivating team spirit. The activities aim to boost participants' self confidence and their openness to new experiences.
